

**Quality control services for
the cosmetic industry**

SKINCARE • MAKE-UP • FRAGRANCE

www.bcbusinessconsulting.it

About Us

BC Business Consulting specializes in consultancy and quality control services for cosmetic brands, with expertise in the Make-Up, Skincare, and Fragrance sectors.

We support companies of all sizes in the development and management of the entire production chain, offering technical, organizational, and strategic solutions.

Mission

To guarantee the highest quality standards for cosmetic products, guiding our clients through every stage of the process — from production to packaging.

Vision

To be a reference point for the international cosmetic industry, promoting quality, innovation, and sustainability.

Services

Quality Control

- Inspection of bulk, packaging, semi-finished, and finished products
- Compatibility and stability testing
- Definition of standard parameters (pressing, payoff, drop test)
- Chemical and microbiological analyses in certified laboratories

Packaging & Sustainability

- Supplier sourcing and approval
- Review of technical drawings and specifications
- Definition of color ranges, AQL testing
- Sustainable packaging solutions for beauty and fashion

Services

Product Development

- Full-service supply of finished products
- Color approval during production
- Product industrialization
- Batch control and product release
- Packaging approval

Filling & Assembly

- Supervision of filling and assembly processes
- Definition of outer box and pallet layouts
- Coordination of transport testing
- Import-export logistics
- Customs clearance and freight forwarding

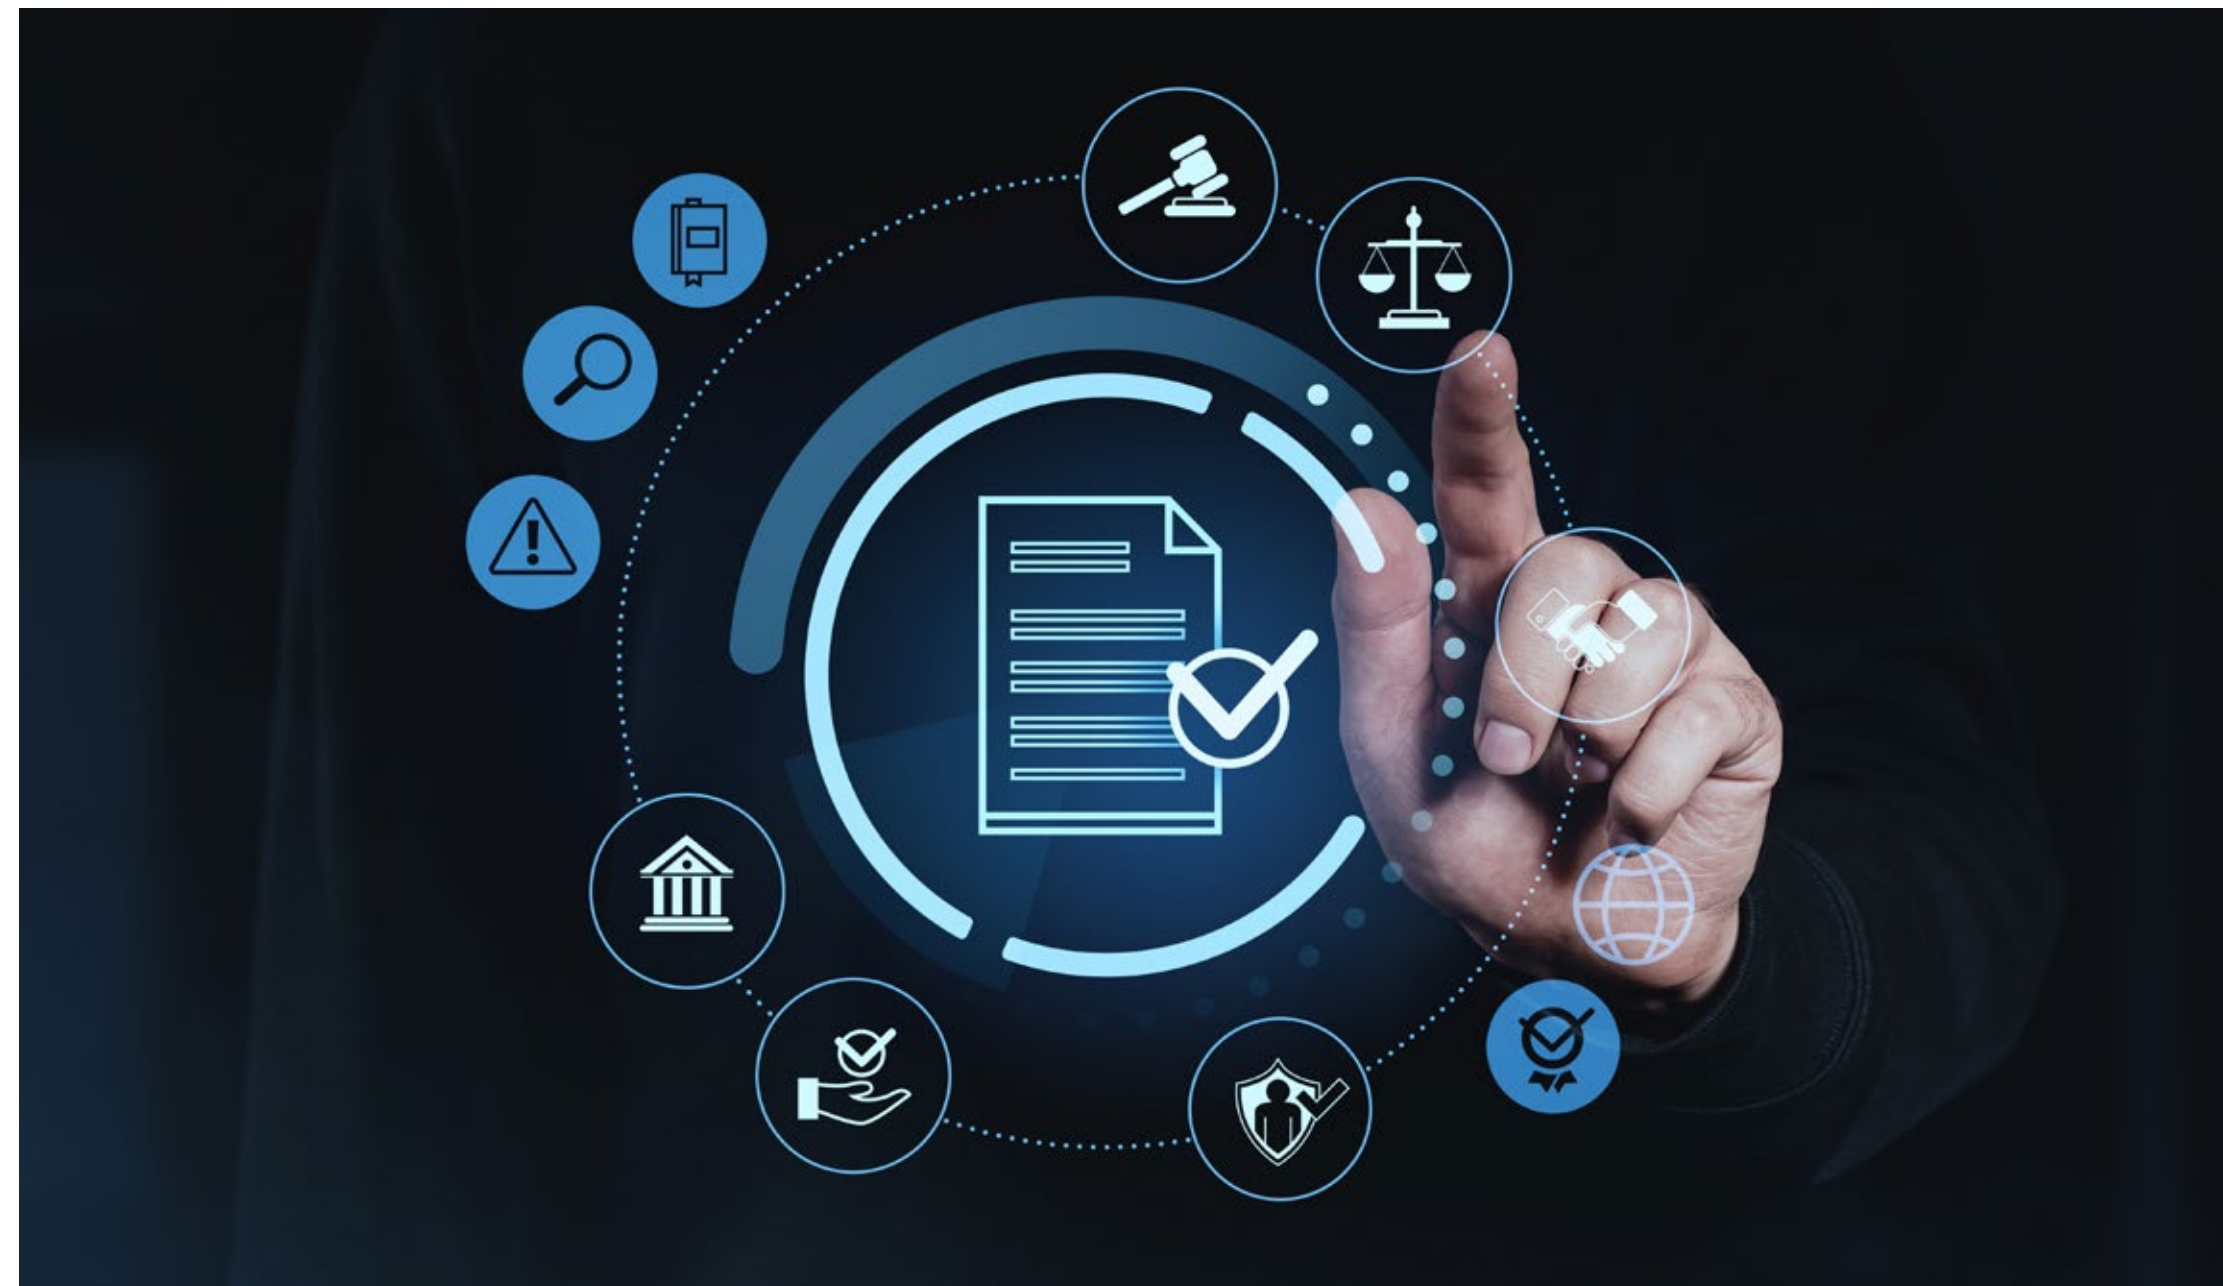

Services

Audits and Certifications

- Supplier audits and approval processes
- ISO 9001:2015 certification support
- IATA & ADR certifications

necessarie per l'attività di
has shown technical and methods as needed for activity of

**AUDITOR INTERNO
DEL SISTEMA QUALITA' NELL'INDUSTRIA**
(norme UNI EN ISO 9001:2015; 19011:2012)

Regulatory Consulting

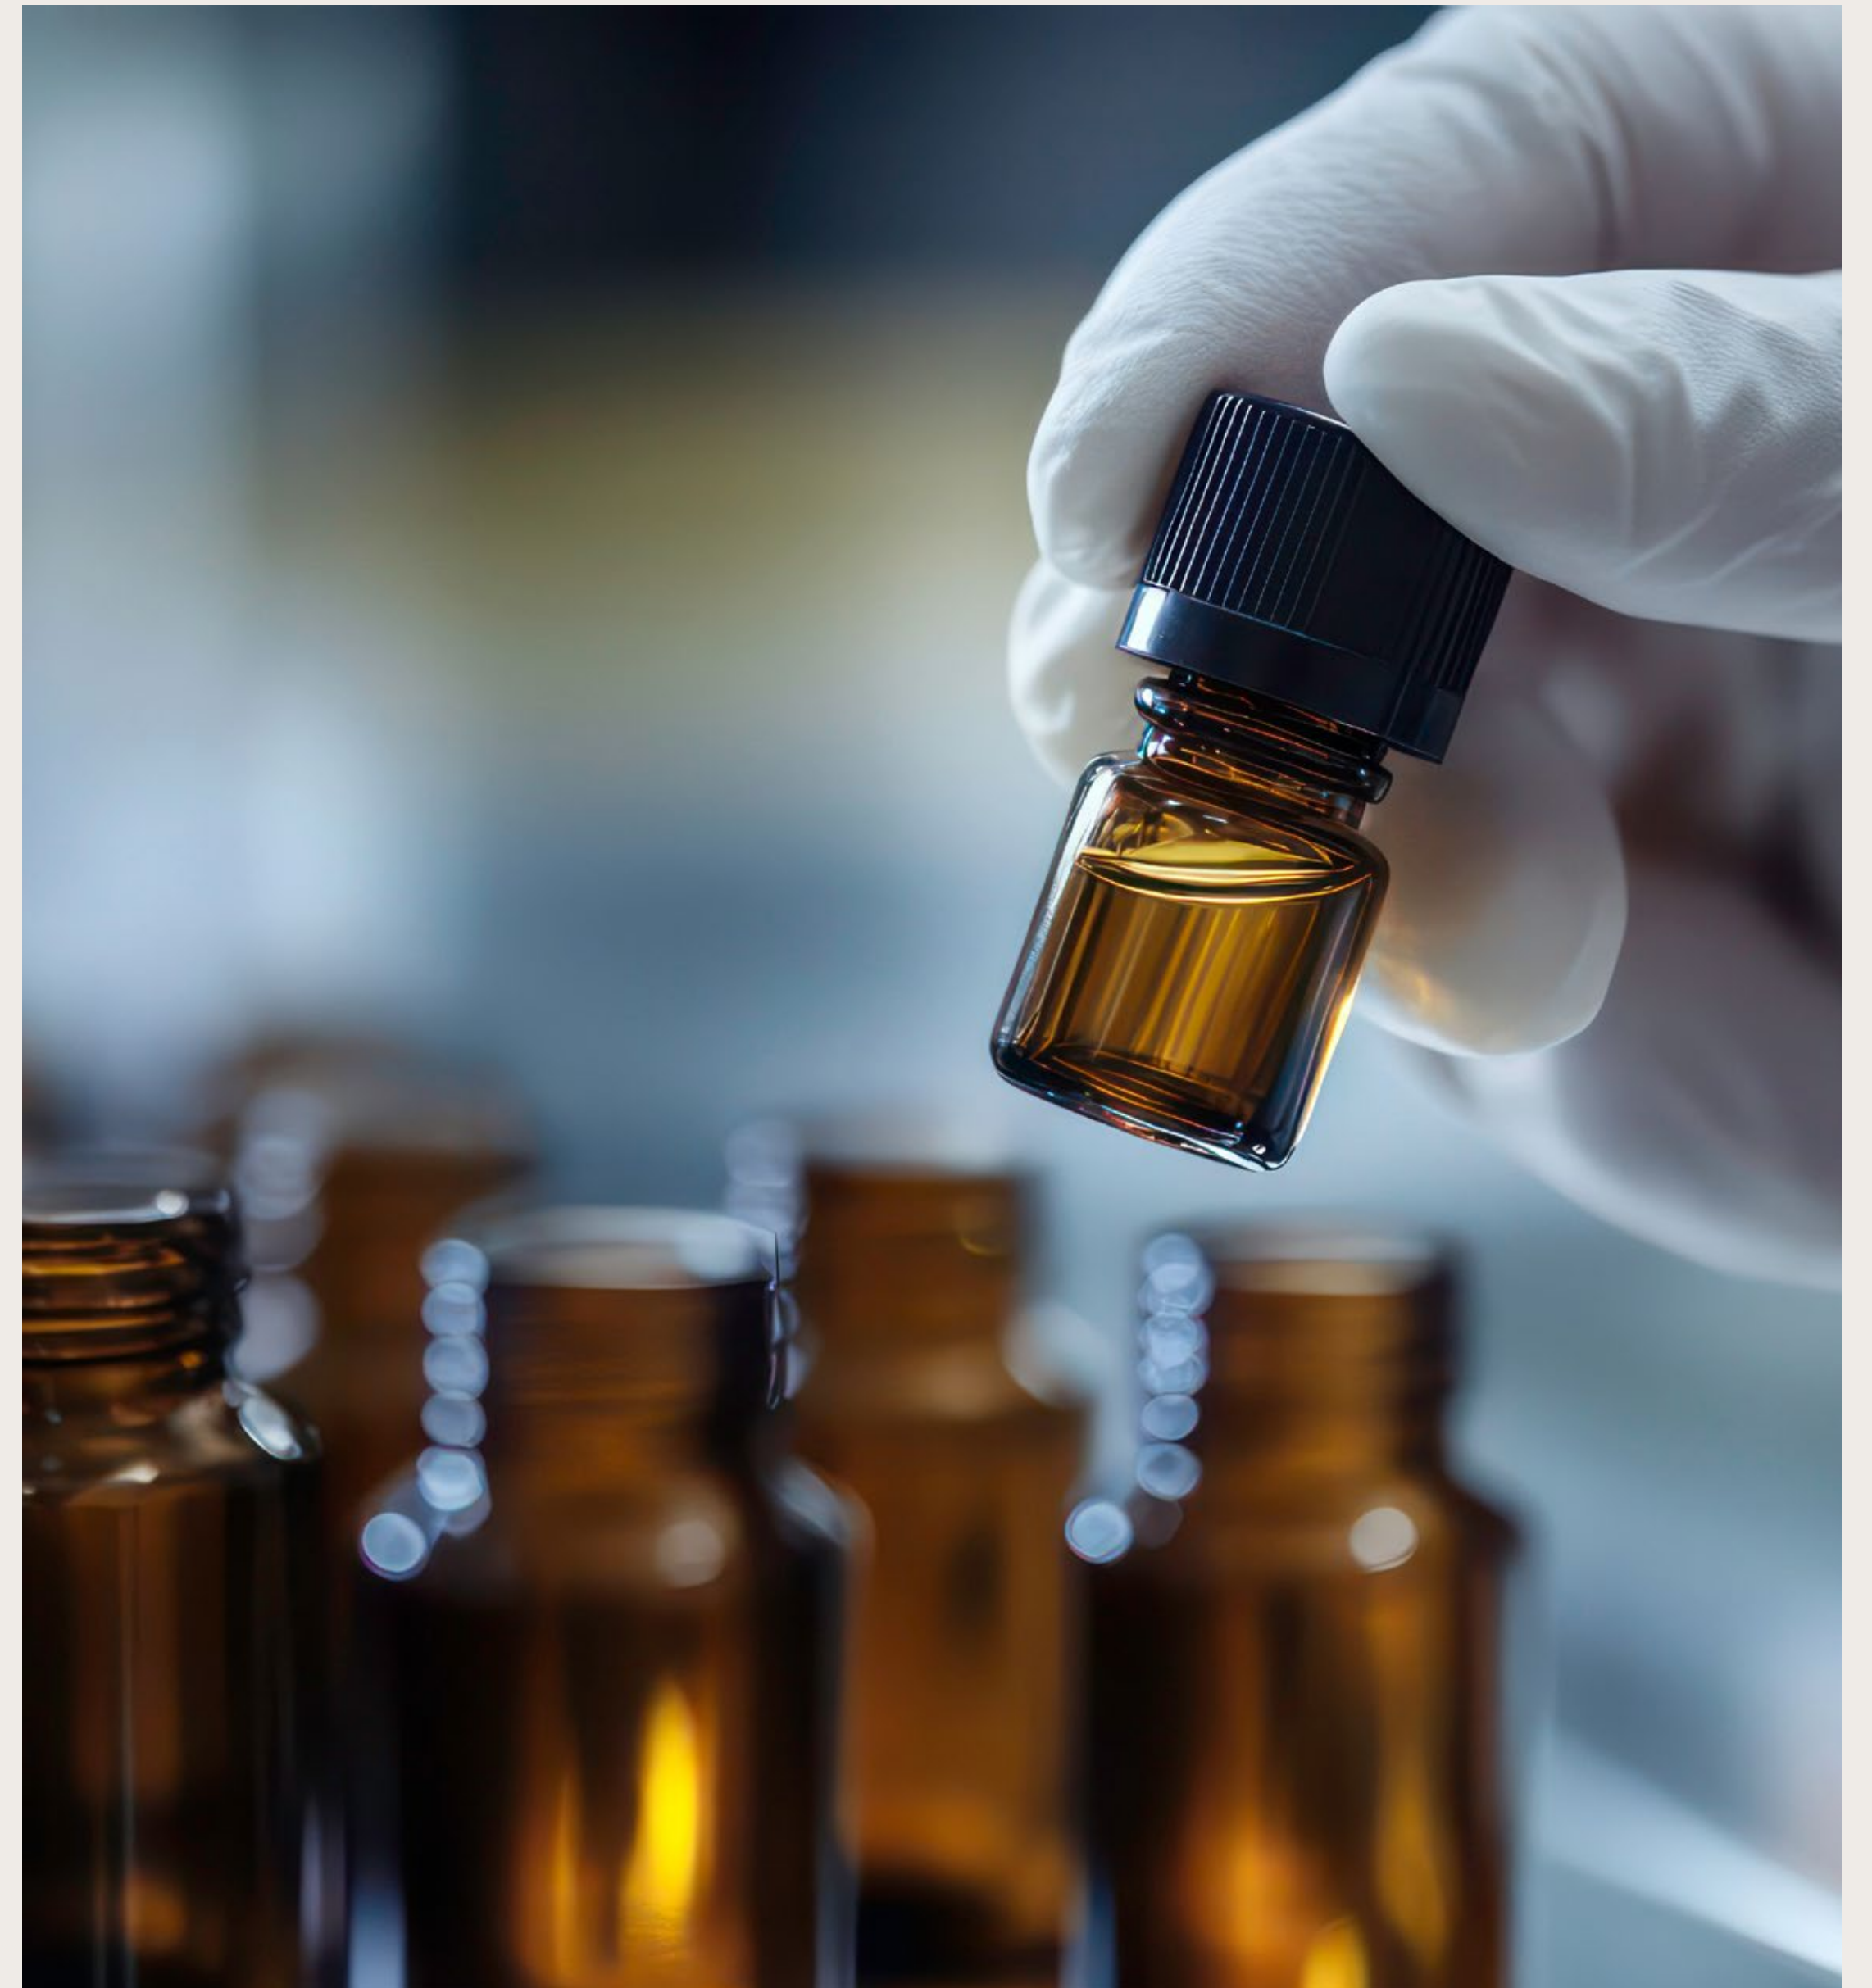

We assist our clients in ensuring regulatory compliance for the marketing of cosmetic products in both European and non-European markets.

European Market

- Compliance with Regulation (EC) No 1223/2009
- Assistance with documentation in collaboration with manufacturers
- Review of claims and label assessment
- Coordination of clinical tests, safety assessments (CPSR), and PIF preparation
- CPNP notification for market launch

Non-European Markets

- Support for exporting cosmetics to key international market
- Management of documentation: formulas, GMP, free sale certificates, legalizations
- Coordination with local importers/consultants for product registration and regulatory requirements

Product Development & Compliance

- Support in formulation and suitable packaging selection
- Management of stability, compatibility, and storage testing
- Development and production planning
- Supplier sourcing and negotiation support

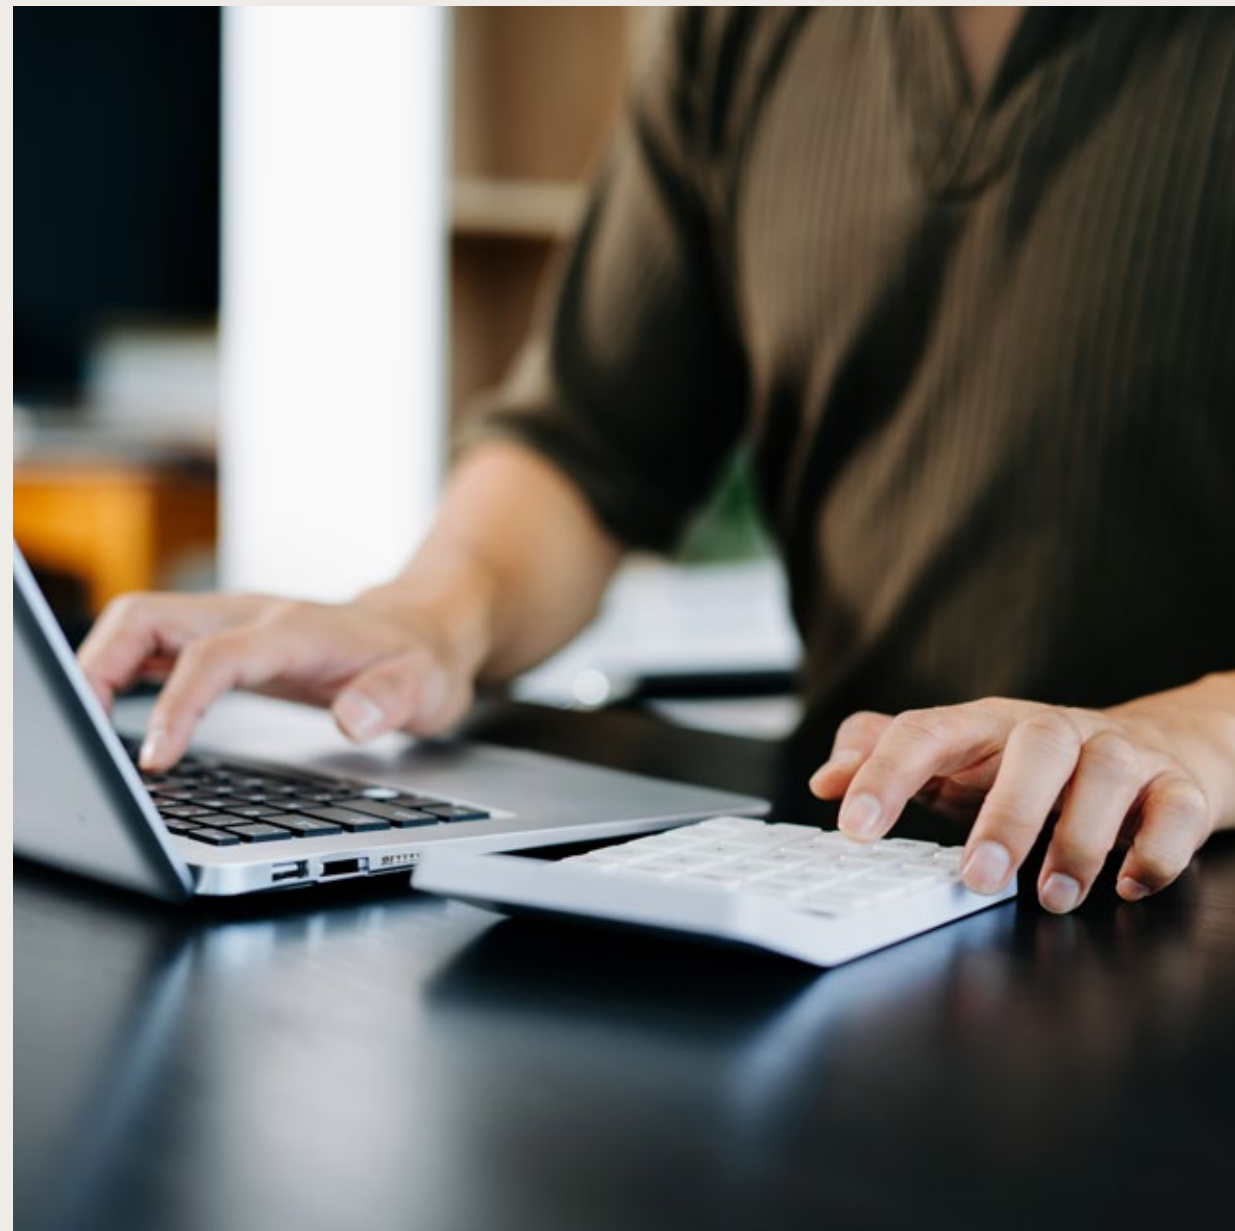

Who We Work With

- Cosmetic start-ups
- Established international brands
- Third-party manufacturers and laboratories
- Fashion brands with beauty divisions
